The **DTG PreTreat-R Gen. II** eliminates concerns about electrical and mechanical parts gumming up with a new Pneumatic Platen Drive System (PPDS).

Easy purge system allows for quick cleanup and consistent pretreatment quality - day in and day out. Easier cleanup means better pretreatment and better prints and more time to spend on the important things in your business.

The **DTG PreTreat-R Gen. II** comes with the industry's only two year warranty - just like the DTG line of direct to garment printers. You get piece of mind for a full two years - twice what other pretreatment machines offer.

The **DTG PreTreat-R Gen. II** doesn't just work with DTG brand printers, virtually any brand of pretreatment will work your **DTG PreTreat-R Gen. II!** With simple speed control settings you can lay down as little or as much pretreatment as you like.
