FOR THE SERIOUS APPAREL DECORATOR

THE HM1-C

Our newest advanced model with features unseen and unprecedented in digital small flatbed technology.

The **HM1-C**, our newest model, retains all the characteristics that make the original **DTG KIOSK** the world's 1st choice in digital direct garment printing. The **HM1-C** has now added some very user friendly **SMART** features to enhance speed and print quality.

The **HM1-C** sets a new standard in small flatbed printing technology with a built-in 8 color bulk ink system and auto bed adjustment to a max 5.5 inches. Perfect for textile direct printing or rigid surfaces.

- NEW White Ink Management System
- 4 Channels of White Ink for that extra color vibrancy
- Registration perfect head moving technology
- Auto Ink Suspension
- Increased speed - up to 4 times faster
- Advanced firmware upgrades
- Built-in bulk ink system
- Fan-forced ink extraction
- Head moving pinpoint registration

Industry Exclusive

WIMS (WHITE INK MANAGEMENT SYSTEM)

The patent pending White Ink Management System has reduced preventive maintenance intervals. The DTG-WIMS is the final answer to white ink prints. By re-circulation of ink via a pressurized peristaltic pump system coupled with pressure release filters and dampers your white ink is ready to print when you are.

HM1 Specifications
